# MODULAR SPACES

OUR MODULAR FURNITURE GIVES YOU THE FLEXIBILITY TO INDIVIDUALISE YOUR BATHROOM DESIGN BY INTRODUCING FINE STAND-ALONE PIECES TO CREATE PRECISELY THE LOOK YOU WANT.

#### BEST OF BRITISH QUALITY

Most of our Modular furniture is made here in Britain. Easily maintained and hard-wearing, all our furniture comes with a five-year guarantee. Soft-close doors and hard-wearing drawers are fitted as standard.

#### SUPPLIED RIGID

Quicker and easier to install.

#### BRILLIANT DESIGN

Look out for innovative features such as curved basins and fluted doors.

#### SLIMLINE DESIGNS

A choice of slimline options ideal for cloakrooms and smaller bathrooms.

#### CERAMIC & POLYMARBLE BASINS

Ceramic won't fade or discolour and will be a great colour match for your toilet. Polymarble ensures a crisp, super smooth finish and is incredibly durable.

#### YOUR WAY

Choose either complete units with cabinets and basins, or create your own look buying each component part separately.

**MADE IN BRITAIN**

BATHS:  
**ETERNALITE  
BATHS**

OUR HUDSON REED BATHS HAVE A THREE LAYER ETERNALITE FINISH, ABLE TO WITHSTAND UP TO 2.5 TONS, MAKING THEM STRONG, RIGID AND MORE DURABLE THAN A STANDARD BATH.

A QUALITY FINISH GUARANTEED

**1st Layer**  
High gloss, smooth, sanitary-grade acrylic, which is warm to the touch. The solid colour will not fade or rub off over time.

**2nd Layer**  
Fully encapsulated, high-strength base board to give better impact resistance, and reinforced with a glass fibre resin, providing the ultimate strength.

**3rd Layer**  
The Eternalite finish provides extra rigidity and a thermal layer to ensure the water stays warmer for longer.

# CHOOSING YOUR PERFECT SHOWER

VALQUEST

Safety  
Anti Scald

THERE ARE LOTS OF REASONS TO CHOOSE A HUDSON REED THERMOSTATIC SHOWER: SAFETY, CONTEMPORARY DESIGN, CO-ORDINATING TAPS AND MARKET-LEADING GUARANTEES. EVEN BETTER, OUR SHOWER VALVES ARE ALSO GREAT FOR YOUR INSTALLER, MEANING LESS TIME AND THEREFORE LESS COST TO YOU.

## HUDSON REED SHOWER BENEFITS

### Installation Made Easy

A selection of our Thermostatic Shower Valves contain the patented Valquest cartridge, which makes them easy to install and maintain.

- The cartridge is fully reversible, meaning if hot and cold supplies are the wrong way round, it doesn't need re-plumbing. Simply remove the cartridge, turn 180° and replace.
- The patented cartridge is highly resistant to calcium build-up, even in hard water areas.

### Safety For All The Family

- Full thermal protection to prevent scalding even in the event of hot or cold water failure.
- Thermostatic control to +/- 2 degrees, even if the temperature or incoming pressures fluctuate.

### Made in Britain

Our shower valves are manufactured in Bolton by a dedicated team, and we are proud to be members of the Made in Britain scheme.

### Reliability

- Accurate flow control.
- Excellent flow rates - even at low pressure. Hudson Reed showers can deliver 5.5 litres of water per minute at 0.1 bar pressure.

## GUIDES

### Water Pressure

LP1	0.1 Bar Suggested
LP2	0.2 Bar Suggested
MP	0.5 Bar Suggested
HP1	1.0 Bar Suggested
HP2	2.0 Bar Suggested

## SHOWER SYSTEMS EXPLAINED

### Gravity-Fed System

#### Low Pressure

If you have a cold water tank in your loft and hot water cylinder then you have a gravity fed system.

Suitable for all LP1 and LP2 combinations. For all our MP and HP combinations, you may need to use a suitable shower pump to give the required pressure for optimum performance.

### Mains System

#### High Pressure

If you have a combination boiler or instantaneous gas water heater (multipoint heater) then you have a high pressure mains system.

Suitable for all of our shower systems.

### Unvented System

#### High Pressure

If your hot water is stored under pressure in a cylinder you have a high pressure unvented system.

Suitable for all of our shower systems.

### Shower Pumps

#### High Pressure

The valves are also suitable, without modification, for all types of installation, including pumped, gravity systems, mains pressure and combination boilers.

There are many choices of shower pumps, including positive or negative head pumps - please ask your installer to confirm which will be suitable for your specific installation.

All our radiators have been designed to provide a comfortable level of warmth needed for everyday indoor use, as well as being manufactured to conform to BS EN 442-1:2014, and all current European standards.

Our heating products have all been independently tested and we are delighted to present our collection of fully certified CE products that conform to all applicable standardized regulations.

DESIGNER RADIATOR AND HEATED TOWEL RAIL FAQs

How much heat will I need?

All rooms are individual and therefore the heat output required from your selected radiator will vary. It is important that you choose the correct radiator to ensure that enough heat is generated to keep you comfortable. A sensible tip is to always choose a model with a higher heat output than you require, as this can always be controlled by turning them down.

What is the measurement for heat output?

All our radiators carry the heat output measured in either:  
• BTUs (British Thermal Unit) or  
• Watts  
BTUs are shown with water temperature of 80°C at radiator inlet.

What heat output will I need for my room?

It is highly recommended that your installer calculates the BTU requirement for each applicable room, so you can get the maximum heat benefit from your chosen radiator. We strongly suggest this is done before purchasing your radiator.

What radiator designs offer the best heat output?

Basically, the bigger surface area that a radiator has, the more heat output will be generated. Another general guide is that painted finishes offer a slightly better heat output than chrome-finished items. To optimize the space you have available, we offer radiator designs that can be fitted horizontally or vertically. To get additional heat output from the same area, you can also choose options that include multiple rows of tubes, panels and columns.

Radiator colour options

From stock, we offer the most current fashionable colour options across a wide range of products.

Please note that owing to the printing process, the actual colours on the radiators may vary slightly from those shown in our brochure.

Pipe centres

All our dimensional details are published in our current brochure and on our website. However, owing to manufacturing tolerances, we strongly suggest that your final pipework position is not completed until you actually receive delivery of your radiator.

Electric-only radiators

Where your installation location does not have immediate access to an existing water supply, we can offer purpose-made electric-only products for a quick and easy solution to your heating needs. These electric-only products are supplied pre-filled with an electrical inhibitor solution, and fitted with a compatible heating element.

Dual-fuel radiators

Some of our radiators can also work as dual-fuel applications, which means that when your main heating system might be turned off in the summer months, you can still operate your radiators electrically if required. Please consult your plumber before purchasing heating elements.

Radiator valves options

Depending on your choice of radiator, we have several styles to choose from, details of which can be found on the left hand page.

Warning / Precautions

Qualified persons should make all electrical and plumbing connections. When fitting radiators with heating elements, the radiator must always be mounted with the element at the bottom with the radiator in the upright position. Failure to do so may result in a fire hazard.
