SONAS
BATHROOMS REIMAGINED

**Reimagined by you,
Designed by us**

With over 45 years' experience, SONAS have evolved into a leading brand and designer of bathroom products. Our story has only been made possible due to the incredible people involved with SONAS, from our staff to our customers and the communities within which we operate. Cultivated by a culture of curiosity and exploration, our product development team are driven to innovate and continuously reimagine bathrooms. Our product ranges have been meticulously considered to ensure you get the highest

level of quality, style and unparalleled design that reflect the latest trends. At SONAS, we know that your story and experience are unique to you. Our customer experience team are always at hand to advise and assist you while your experience is taking place and, even more importantly, after it's over. With a dedicated after sales team, we believe that once you're a customer, you're a SONAS customer for life. So, let's start your story and reimagine what's possible for your bathroom.

PLANNING YOUR BATHROOM

Here at SONAS, we understand that undertaking a bathroom project can be a little daunting. So, we've outlined five simple steps to help you get started and to reimagine your dream bathroom!

1 Research and Inspiration

Before diving into your bathroom project, take the time to do thorough research and gather inspiration. Exploring various sources of inspiration will not only help you reimagine your dream bathroom but also provide valuable insights into the latest trends and design ideas. Start by browsing home improvement magazines, websites, and social media platforms that showcase stunning bathroom renovations. Our Styled by SONAS magazine will give you some great ideas on the latest design trends.

2 Colour

Look for different colour schemes, fixtures, materials, and layout arrangements that catch your eye. Pay attention to the overall mood and ambiance created by various colour combinations. Colours play a pivotal role in bathroom design, setting the tone and atmosphere.

Lighter colours, such as whites and pastels, create an airy and tranquil feel, ideal for small bathrooms or those lacking natural light. On the other hand, bolder colours like deep blues or rich jewel tones can add a touch of drama and sophistication to larger spaces. Consider the colour psychology behind different shades as you choose your bathroom's colour palette. Warm tones evoke a cosy and welcoming vibe, while cooler hues like blues and greens promote relaxation and serenity.

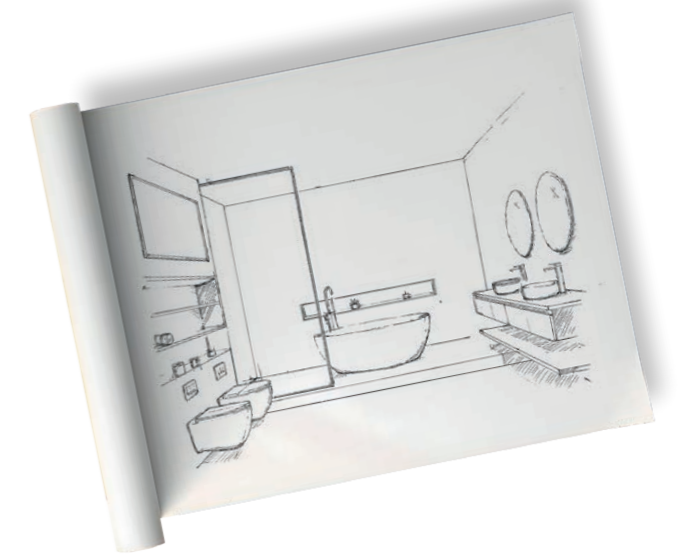

Additionally, explore the use of contrasting colours or complementary colour schemes to add visual interest to your bathroom. For instance, pairing soft blues with warm wooden accents can create a striking and modern aesthetic.

Pay attention to the colours of fixtures and accessories as well. Consider the finishes of taps, accessories and radiators and how they interact with your chosen palette.

3 Design and Layout

Design and layout are significant aspects of any bathroom renovation project. Consider the size and shape of your bathroom and explore various layout options to optimise the available space. Think about the practicality of fixtures, placement of storage, and the flow of movement within the room.

Choose a design that reflects your personal style while maintaining functionality. Remember, simplicity is key. Focus on timeless design elements and durable materials that will withstand the test of time and won't require frequent updates. Pay attention to lighting, colour schemes, and fixtures, as these details can greatly enhance your overall bathroom experience.

4 Budget

Setting a realistic budget is crucial when planning your bathroom renovation. Determine how much you can comfortably spend and allocate funds for each aspect of the project – including materials, labour, and unforeseen expenses. Prioritise your must-haves and be prepared to make compromises if necessary. Remember to factor in additional costs, such as permits and professional fees. By creating a budget and sticking to it, you'll have a better understanding of what's financially feasible and avoid any unwelcome surprises as the renovation progresses.

5 Installation

When it comes to installation, it's essential to select reputable professionals who specialise in bathroom renovations. Seek recommendations from friends, family, and online review platforms to find qualified contractors and plumbers. Obtain multiple quotes and compare their expertise, prices, and time lines. Once you've chosen your team, establish clear communication channels and discuss the project's details to ensure everyone is on the same page. Regularly check in on progress, ask questions, and address any concerns promptly. Working with professionals will minimise stress and ensure a smooth process from start to finish.

BATHROOMS REIMAGINED

SAVE WATER EVERY DROP COUNTS

What is the Unified Water Label?

The Unified Water Label is a clear and easy to identify label, that help the end user make an informed decision about water and associated energy consumption of water using bathroom products. Reduced water waste saves energy, which in turn reduces carbon emissions, saving you money and helping to save the planet.

70% of all water used within the domestic environment is associated with bathing and washing functions, and 25% of consumer energy bills is linked to heating this hot water (uwla.eu/consumer/)

Water is our most precious resource. As a bathroom manufacturer and voluntary members of the Unified Water Label, SONAS are committed to helping homeowners to reduce their water consumption. That is why we have developed a range of water-saving basin mixers, WCs and showers that together will help homeowners to reduce their water usage, saving energy and water.

In this brochure you will see products tagged with the Unified Water Label. This means they are certified for the Green Band Rating. By choosing these products for your bathroom, you know that you are making a responsible choice for the planet.

Find out more at uwla.eu

100,000 Litres

That's how much water you can save in your home using Unified Water Label certified bathroom products from SONAS.

BASIN MIXERS

Choose from our water-saving basin mixers such as the **HAKK** Collection with a flow rate of 5l/min.

ECO FLUSH

Select Eco Flush WCs such as **PEÑA** and **VIA**. Operating on an average 3L flush (4/2.6l dual flush).

SHOWERS

Reduce water consumption while showering using our **ALITA** exposed showers with an optional flow rate of 6l/min.

SUSTAINABILITY STRATEGY

2024 - 2026

REIMAGINING A BRIGHTER FUTURE

As Ireland's leading bathroom brand, at SONAS we are committed to becoming a leading company when it comes to our ESG (Environmental, Social, Governance) performance. In our Sustainability Strategy for 2024-2026 we have shared our progress to date and how we will continue to make improvements to achieve this goal.

This strategy is aligned with the United Nations Sustainable Development Goals (SDGs) and is built around four core pillars: Operating Environment, Supporting People, Responsible Production, and Integrated Sustainability.

You can read more about our Sustainability strategy here:

FURNITURE

Introducing our exceptional bathroom furniture collection, where style meets functionality to create a truly personalised bathroom experience. Designed with utmost care and attention to detail, our furniture showcases a wide range of design elements, colour options, and sizes, allowing you to find the perfect piece to suit your bathroom design and reflect your unique personality.

Our furniture units are not only functional in terms of ample storage space with soft-closing drawers and doors, but they also serve

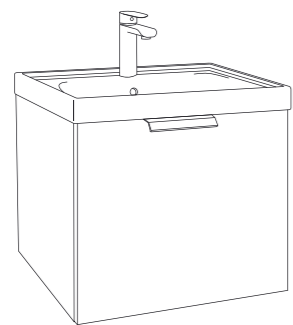

as focal design features, shaping the overall look and feel of your bathroom. With full extraction drawers, maximize your storage capacity and keep your essentials organised and easily accessible.

Elevate your bathroom to new levels of style and convenience with our exceptional furniture collection, where functionality and design seamlessly merge to create a bathroom that is both practical and visually stunning.

Explore endless possibilities and transform your bathroom into a space that is uniquely yours.

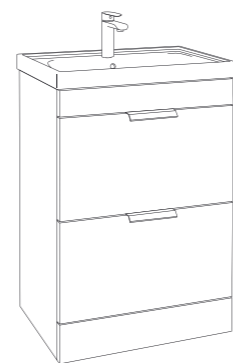

Bathroom Furniture Guide

When it comes to designing your bathroom, your choice of bathroom furniture can make a world of difference. Remember, your bathroom furniture should not only be functional but also complement your design preferences. Whether you have a spacious bathroom or a compact one, this comprehensive guide will help you navigate through various furniture options, styles, and tips to make the most of your space.

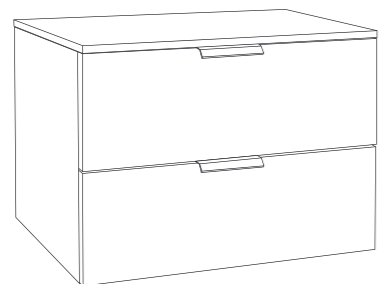

Wall Hung

An excellent choice for modern bathrooms, wall hung units offer elegant design while also maximising floor space, which can be especially useful in compact bathrooms. With flexibility in installation, you can set the vanity unit at a height that suits you and your family's comfort, ensuring a personalised and ergonomic experience.

Floorstanding

A classic choice that marries timeless aesthetics with practicality, floorstanding furniture works well in both traditional and contemporary bathrooms. Offering ample storage, one of the key benefits of choosing these units is the possibility of concealing unsightly plumbing work, which creates a clean and polished look for your bathroom.

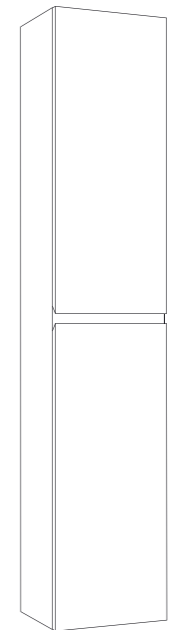

Countertop

For those seeking to infuse modernity and sophistication into their bathroom design, countertop units are the perfect solution. Allowing you to create a truly personalised bathroom space, their defining feature is the washbasin sitting atop the countertop. Giving you the option to complement your design with different sizes, shapes and colours of basins.

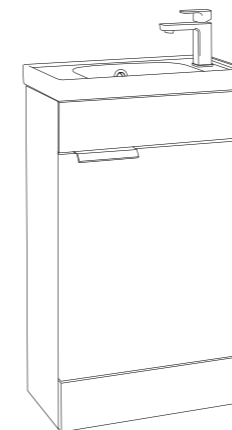

WC Unit

WC units are known for their clean and minimalist design, making them a popular choice for modern bathrooms. These units discreetly conceal unsightly pipework offering a sleek and practical solution for incorporating a back-to-wall toilet in your bathroom. Select a colour that matches your bathroom's style and cleverly add shelf space for your bathroom's finishing touches.

Wall Columns

When it comes to enhancing bathroom storage, wall column units prove to be a versatile and valuable addition. Their vertical design draws the eye upward, creating an illusion of a taller and more refined space. Designed to maximise storage, in smaller rooms or bathrooms with limited floor area, they become lifesavers by efficiently using the often-underutilised vertical dimension.

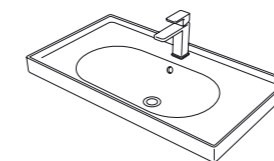

Cloakroom

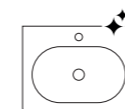

Ideal for smaller bathrooms, cloakroom units are specifically tailored to make the most of limited space while providing essential functionality. Combining a basin with storage, they provide a place to store toiletries and other bathroom essentials neatly. Despite their small size, cloakroom vanity units come in various styles and designs to complement your bathroom decor.

* Ensure your wall can support the weight of wall hung units and that pipework runs through the wall for a clean finish.

SONAS

SCANDINAVIAN COLLECTION

The SONAS Scandinavian Collection comprises seven distinct furniture ranges inspired by the natural landscape of the region. Together they represent clean, simple lines, and minimalism. Our designers have achieved both enhanced functionality and form. Within the Scandinavian collection explore the range of distinctive finishes and the alternative options of integrated or countertop basins with either gloss finish first class ceramics, or matt solid surface resin basins. The choice of muted dark hues, light neutral colours, and warm colours, creates a feeling that is warm and inviting.

FINLAND

If you want to bring a timeless design element with practical applications into your bathroom, FINLAND is the perfect choice. Boasting rectangular, straight lines and framed front, FINLAND is styled with a front pull handle. Characterised by its symmetry, FINLAND displays pure, unembellished clean lines, a testament to the splendour of uncluttered design. Available with a ceramic basin or as a countertop unit, that is complemented by the SKÅL duo-tone basins or AVANTI ceramic vessel basins. Choose FINLAND and surround yourself with pure elegance.

MALMÖ

Inspired by minimalist Scandinavian design and the northern winter, MALMÖ framed vanity unit blends modern design with natural elements. The distinctive MALMÖ features wide drawers and an oak effect finish exposed open shelf. This stylish vanity unit delivers great display and storage options with convenient access to your essential toiletries. The flexibility of MALMÖ allows you to choose a matt or gloss ceramic basin, or using a countertop that is compatible with the SKÅL basin range. MALMÖ's straight lines and front pull handle adds personality to your bathroom. Let the MALMÖ inspire your bathroom.

FJORD

Sophistication made simple. FJORD is one embellished piece that is creatively designed and intricately crafted for a unique appeal. Its stand out feature is an external drawer that cleverly conceals a discreet second internal drawer. This innovative hidden and fully extendable, internal drawer with soft-close system provides a unique solution for storage of your personal items. Striking the perfect balance between contemporary design and innovation, FJORD modern chamfered edge and choices from countertops and integrated ceramic basins will add character to your bathroom.

SKÅL

Elegant and bold – the stylish dual-tone SKÅL countertop basin sits proudly on your selected countertop vanity unit. The organic shapes and ultra-sleek profile are achieved by Solid Surface, a natural resin material, with a silky-smooth touch and matt finish. SKÅL Basin showcases a modern, cutting-edge aesthetic. With the resin material, SKÅL embraces new forms - round, oval and rectangular. The palette is chosen to coordinate with the colours in the Scandinavian furniture collection. SKÅL spectrum of shades adds a touch of sophistication to your bathroom. Complete your look with our range of contemporary Freestanding or Wall Mounted Basin Mixers.

KORA

With rounded edges and robust handles, this solid and compact design from 50 - 60cm width makes it ideal for mid-sized bathrooms. With a range of attractive colours, KORA can create a cheerful bright feeling in your space. The deep drawers offer ample storage, maximising the usable space with a U-shape design on the top drawer. The classic monochrome look can be achieved with the Matt Black handle or an option of the ever-popular Chrome finish. The choice is yours.

MIRRORS

Reflect your style with our stunning range of bathroom mirrors and discover the transformative power of a well-designed mirror. Not only do mirrors add functionality to your daily routine, but they also contribute to the overall design and ambiance of your space, reflecting your unique personality.

Our range of mirrors goes beyond the ordinary, offering integrated lighting options that enhance both practicality and aesthetics. Choose from direct lighting for focused illumination or ambient lighting for a subtle and relaxing atmosphere. Illuminate your bathroom in a way that suits your needs and creates the perfect ambiance.

With a variety of shapes and sizes to choose from, our mirrors allow you to find the perfect fit for your bathroom. To truly personalise your space, our mirrors are also available in stylish colours such as matt black and brushed gold, creating a harmonious blend with other fixtures in your bathroom.

Upgrade your bathroom with a mirror that not only serves its purpose but also adds a touch of elegance and sophistication. Transform your space into a reflection of your style and personality. Explore our exquisite range of bathroom mirrors and let your design vision come to life.

Mirror Features

ENERGY EFFICIENT LED
(light-emitting diode) bulbs are more energy efficient and durable than standard light bulbs, often enabling up to 35,000 hours of use.

COLOUR TEMPERATURE CHANGE
A lower colour temperature produces a warmer, more relaxing glow while a higher colour temperature displays a cooler brighter light.

DIRECT LIGHT
Designed with an LED light source facing outward, front-lit mirrors are particularly beneficial for tasks that require precision, such as shaving or makeup application.

AMBIENT
Light is projected indirectly creating a multi sensory bathroom experience. The LED source emits a soft, diffused light that helps to create a warm and inviting atmosphere in the space.

TOUCH SWITCH
A mirror feature that allows you to control various functions of a mirror, such as lighting and defogging, with a simple touch on the control buttons.

MAINS SWITCH
These mirrors do not include a built in switch. Instead, they are designed to be connected to an external bathroom switch

DEMISTER
The integrated pad that gently warms the mirror's surface, preventing the build up of steam and condensation, leaving your mirror fog free.

PORTRAIT OR LANDSCAPE
Allows you to customise the orientation of your mirror to suit your bathroom layout and design preferences.

BLUETOOTH CONNECTIVITY
Wirelessly connect to other Bluetooth-enabled devices and enjoy your favourite music while you prepare for the day.

USB
USB ports provide a convenient charging solution for your devices such as smart phones and tablets. Allowing you to keep your gadgets powered up while you carry out your daily routine.

SOFT CLOSE
Soft close technology allows cabinet doors to close softly and slowly, preventing them from slamming shut.

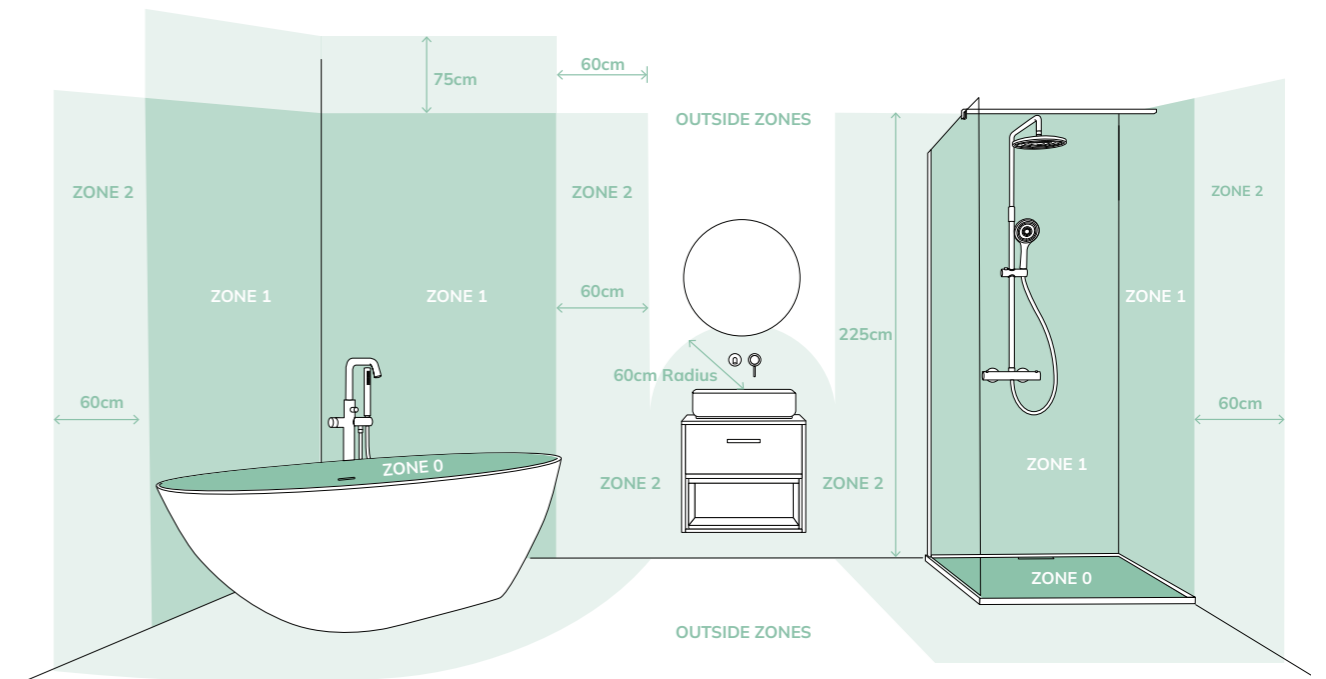

ZONES
Bathrooms are divided into zones based on their proximity to water sources. These zones determine what types of appliances are allowed, and to what degree they need to be protected against water.

INGRESS PROTECTION RATING
IP rating refers to the level of protection that electrical and electronic equipment, have against solid particles and water. An IP44 rating means your product is protected from solid particles over 1mm in size and low velocity water sprays.

Bathroom Zones

Bathroom electrical zones are defined areas in a bathroom that determine the type of electrical devices and their installation requirements to ensure safety. These zones are classified based on proximity to water sources

ZONE 0

Represents the areas inside the bath or shower tray.

ZONE 2

Represents the area 60cm outside of Zone 1.

ZONE 1

Represents the area above the bath or shower tray up to 2.25m.

OUTSIDE ZONES (Zone 3)

Outside zones represent areas which fall outside of Zone 0, 1 and 2, generally referred to as zone 3.

ECHO

Welcome to the world of Echo mirrors, where beauty and functionality merge to create a unique and transformative experience for your home. The range features five distinctive shapes: Round, Rectangular, Eclipse, Segment and Arena, each with its character and style. The mirrors create a soft and calming halo of lighting, allowing you to get a clear view of your reflection without any harsh shadows.

Powered by Samsung LEDs, with high performance and high efficiency, they optimise energy consumption making the lighting more sustainable.

So go ahead, choose your mirror, and let the Echo range reflect the best version of you.

SANITARYWARE

Discover our exceptional sanitaryware collection, where form and function seamlessly intertwine to create a bathroom experience like no other. Explore our innovative toilet offering, featuring cutting-edge rimless technology that revolutionises hygiene. With a rimless design, our toilets eliminate hidden, hard-to-reach areas where dirt and germs can accumulate, ensuring a cleaner and more hygienic bathroom experience.

Our commitment to sustainability is reflected in our low flush volumes of just 4/2.6 litres, reducing water consumption and contributing to climate control efforts. Embrace versatility with our wide range of designs and colour options, allowing you to personalise your bathroom, reflecting your unique style and personality. Experience the perfect blend of cutting-edge features, sustainable values, and exceptional design with our extraordinary sanitaryware collection. Elevate your bathroom to new heights of style, hygiene, and eco-consciousness.

Sanitaryware Guide

BASINS

Semi Pedestal Basin

Semi Pedestal Basins are wall hung basins secured to a supporting wall. They conceal pipework that returns through the wall with a semi pedestal that does not reach the floor. These basins provide your bathroom with more floor space.

Full Pedestal Basin

Full Pedestal Basins are attached to your wall. Equipped with a floor mounted pedestal, these basins provide a shroud to conceal your pipework and easily harmonise with the rest of your space.

Countertop Basin

Countertop Basins positioned on top of a countertop unit or shelf are best paired with a tall basin tap, or wall mounted tap. The SONAS range of countertop basins are available in a variety of colours, shapes and sizes.

WCs

Close Coupled – Open Back

A Closed Coupled Open Back style WC has the pan and cistern closely coupled together with the necessary clearance space for your waste pipe. This provides more flexibility for your pipework and can be easily accommodated within most bathrooms.

Close Coupled – Fully Shrouded

A Closed Coupled Fully Shrouded toilet has the pan and cistern closely coupled together. In this design, the pan is seen to meet with your wall. This allows you to conceal your bathroom pipework.

Back To Wall

Back To Wall toilets are a great space saving technique. The main difference between this style and the Closed Coupled toilet is that the cistern is concealed behind your bathroom wall, or placed in a furniture WC unit.

Wall Hung

Wall hung toilets are installed by mounting them on the wall, resulting in a more spacious bathroom layout. To install them, a sturdy fast fix frame is placed behind the wall, which can support up to 400kg of weight. The flushing mechanisms of these toilets can be conveniently accessed through a push plate.

Our Brushed Gold and Brushed Nickel flush plate finishes are applied using Physical Vapour Deposition (PVD). This is a technology that creates a thin film on the surface, giving them superior durability and making them more resistant to wear & tear.

Sanitaryware Features

SHORT PROJECTION

These WCs are the perfect solution if you are short on space. SONAS Short Projection WCs allow you to maximise your space without compromising on quality and functionality.

COMFORT HEIGHT

SONAS Comfort Height WCs are an additional 40mm to 60mm higher than standard height toilets. The additional elevation offers a more comfortable sitting position.

RIMLESS

Instead of water flowing into the bowl around the rim, a direct flush technique shoots water around the edge of a smooth pan. The absence of a rim means significantly easier cleaning, enhanced hygiene, and improved flushing performance.

QUICK RELEASE

Designed for easy and efficient cleaning and maintenance, quick release seats feature a mechanism that allows for swift removal and reattachment without the need for tools. By pressing the button located on the hinges of the seat, it can be effortlessly taken off the toilet for thorough cleaning, reaching areas that are usually challenging to access.

SOFT CLOSE

Soft close toilet seats feature a mechanism that enables them to close gradually and quietly, eliminating the common issue of seats slamming shut. These seats offer a noise-free and controlled descent, enhancing overall bathroom comfort.

ECO FLUSH

An innovative flushing system, with adjustable flush volumes between 2.6 up to 4.5ltrs. These toilets are sustainably conscious by reducing water consumption and having a positive impact on the environment.

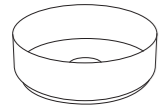

AVANTI

Designed to be interchangeable and work across multiple ranges, AVANTI coloured thin-edge ceramic basin is more than just a practical vessel for everyday use. Available in eight colours, AVANTI's soft curves and classy style are the defining characteristics of this collection.

Crafted from the highest quality material, this elegant countertop basin is built to last. AVANTI evokes a feeling of refinement and is really for anyone looking for something extra special to complement their bathroom.

TAPS

Discover the perfect balance of style and sustainability with our SONAS Tap Collection. Elevate your bathroom design with our exquisite range of bathroom taps, blending contemporary and traditional designs to suit any aesthetic preference. Crafted with utmost care, our taps boast exceptional durability and unrivalled quality, ensuring long-lasting performance. Experience the freedom of choice with our diverse selection of finishes, including chrome, matt black, brushed gold, and nickel. Add a touch of personalisation to your space and

create a truly unique bathroom oasis. We are committed to sustainability, and our collections are designed with the environment in mind. With features such as cold start technology and low flow aerators, water conservation is at the forefront, allowing you to reduce your water consumption without compromising on performance or comfort. Our bathroom tap collection offers a seamless combination of style, durability, and sustainable value. Enhance your bathroom experience with taps that make a statement and contribute to a greener future.

Tap Guide

BASIN

Basin Mixer

The basin mixer cleverly combines hot and cold water into an individual stream. This design ensures easy control of both your temperature and your flow using only a single lever.

Basin Taps

Mounted onto the basin and sold as a pair, basin taps have separate taps for your hot and cold water. Basin taps are available in both traditional and modern styles.

Cloakroom Basin Mixer

The cloakroom is a more compact version of the basin mixer. These taps can be paired with our stunning range of cloakroom vanity units and are perfect for smaller spaces.

Freestanding Basin Mixer

A stylish, elegant and contemporary tap choice for countertop basins without a tap hole. Freestanding taps are available in rounded or angular styles and come in chrome, matt black, brushed gold and brushed nickel finishes.

Wall Mounted Basin Mixer

Wall mounted taps add a touch of luxury to your bathroom. Fixed to your bathroom wall, these taps offer a seamless finish, and can be used as an alternative to a freestanding mixer where a countertop basin is used.

Standard & cloakroom basin mixers include a click clack colour coordinated basin waste. Before purchasing taps and showers always ensure your site conditions meet the minimum operating pressure requirements. Please consult your plumber.

BATH

Bath Shower Mixer

Deck mounted onto your bath or wall mounted above the bath. An inbuilt diverter allows you to switch between the bath filler or handset outlet. The inclusion of an extendable handheld shower head offers a full bathing or showering experience.

4 Hole Bath Shower Mixer

Deck mounted on to the bath with separate hot and cold controls with a diverter to switch to a convenient pull-out shower handset. 4 hole mixers requires an additional bath filling device such as a wall spout or overflow filler.

Thermostatic Bath Shower Mixer

Available in deck or wall-mounted options, thermostatic bath shower mixers offer exceptional temperature stability preventing scalding and burning incidents. The inbuilt diverter allows the user to choose between the bath filler and slide rail kit or shower handset.

Floorstanding Bath Shower Mixer

Ideal for freestanding baths, these taps allow flexibility when choosing your bath position. Available in a range of stunning finishes and styles from contemporary to traditional. These taps are a first fix consideration. Please consult with your bathroom installer.

Deck Mounted Bath Filler

Mounted on the bath, they mix hot and cold water to achieve your preferred bath water temperature. Deck mounted bath fillers are available in a range of stunning finishes and styles from contemporary to traditional.

Spout Filler

Designed for baths without pre-drilled tap holes or for freestanding baths, spout taps are ideal for creating a neat and clutter-free solution. Spout bath fillers are available in a choice of designs and finishes. See Page 186

Overflow Filler

Overflow bath fillers allows you to fill your bath from a device mounted at the overflow. Overflow bath fillers can be used as an intelligent space-saving solution. See Page 186

Waterfall Bath Filler

These are a contemporary alternative to a conventional bath filler. Adding wall mounted fillers can effect a sleek and streamlined look and feel to your bathroom. See Page 186

Tap Features

COLD START TECHNOLOGY

Cold start basin mixers promote the use of cold water in daily activities that don't require hot water, reducing carbon emissions associated with water heating and preventing wastage. Only cold water is delivered when the lever is in the centre position.

TEMPERATURE LIMITER

The basin mixers fitted with this feature can be pre-set (installation optional) to limit the maximum temperature in selectable stops. This will help save energy and protect vulnerable users especially in environments where hot water can reach dangerously high temperatures.

PVD

Our Brushed Gold and Brushed Nickel finishes are applied using Physical Vapour Deposition (PVD). This is a technology that creates a thin film on the surface of our taps, giving them superior durability and making them more resistant to wear & tear.

WARRANTY

Our taps come with extended warranty, providing peace of mind and protection for your investment.

Unified Water Label

Our products registered with the Unified Water Label help the end user make an informed decision, when choosing bathroom products. The label offers clear, concise and easy to understand messaging about water and energy consumption.

Taps with a minimum operating pressure of 0.2 bar will operate without the need of a booster pump. They only require a 2 metre vertical distance between the water source (water storage tank) and the tap outlet.

Before purchasing taps and showers always ensure your site conditions meet the minimum operating pressure requirements. Please consult your plumber.

SHOWERS

Discover a world of exceptional showering experiences with our stunning collection of Showers. Embrace contemporary or traditional designs that effortlessly elevate the aesthetic appeal of your bathroom. Our showers are not only visually striking but also built to last, showcasing unrivalled durability and unparalleled quality. Choose from an extensive range of finishes including chrome, brushed gold, matt black, and nickel, allowing

you to perfectly match your shower to your style. Embracing sustainability, our showers are designed to conserve water without compromising on performance, ensuring an eco-friendly showering experience. Immerse yourself in the soothing and invigorating effects of a shower, washing away the stresses of the day and achieving mental clarity. Elevate your bathroom with our exceptional shower collection, combining style, functionality, and sustainable values.

Shower Features

With its innovative Cool Touch technology the body of the valve will always remain safe to touch ensuring a comfortable showering experience for the entire family.

The built in thermostatic cartridge offers an exceptional temperature stability preventing scalding and burning incidents.

Our Brushed Gold and Brushed Nickel finishes are applied using Physical Vapour Deposition (PVD). This is a technology that creates a thin film on the surface of our taps, giving them superior durability and making them more resistant to wear & tear.

Our showers come with extended warranty, providing peace of mind and protection for your investment.

Our products registered with the Unified Water Label help the end user to make an informed decision, when choosing bathroom products. The label offers clear, concise and easy to understand messaging about water and energy consumption.

WRAS approved products undergo rigorous testing to assess their durability and performance. By using these approved products, clients can minimize the risk of leaks and failures, preventing potential damage.

Shower Guide

Your choice of concealed or exposed shower valves is a first fix decision. A concealed shower valve is fitted in the wall before tiles are installed. Choosing this option should be decided and communicated to your installer early in your decision making process.

Exposed Showers

Exposed showers are surface mounted onto the finished tiled wall in the showering area. All hand-showers, overhead rain heads, diverters and pipework are integrated into one exposed kit.

Thermostatic Shower Valves feature a special cartridge that responds to fluctuations to inlet water temperature and flow rates. These enable you to maintain a constant, safe water temperature while using your shower.

Concealed Showers ▶

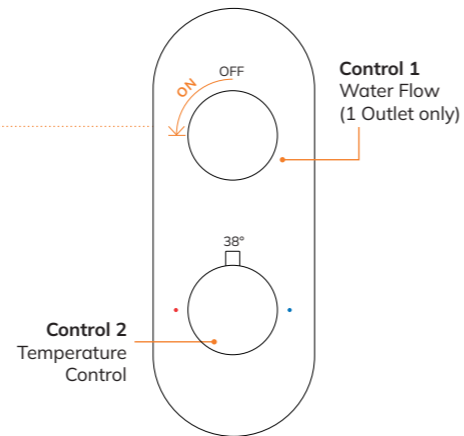

Shower Guide

Concealed Showers

Dual Control Shower Valves have two controls, one control for adjusting the water temperature and the other for controlling the flow of water.

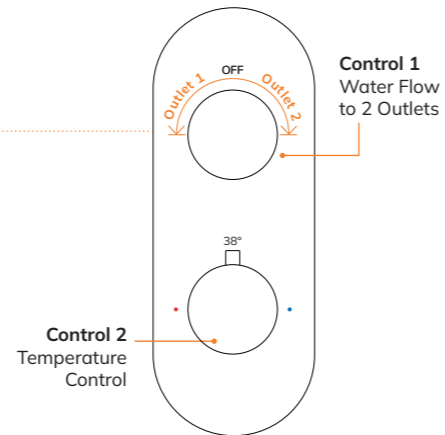

Dual Control - 1 Outlet Shower Valve

This valve has two controls, one for adjusting the water temperature and the other for controlling the flow of water. It's designed to control water for one shower outlet.

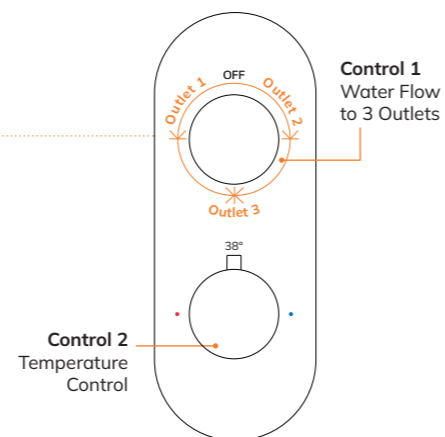

Dual Control - 2 Outlet Shower Valve

Similar to the single outlet valve, but with an inbuilt 2 way diverter that allows you to switch water flow between two different outlets.

Dual Control - 3 Outlet Shower Valve

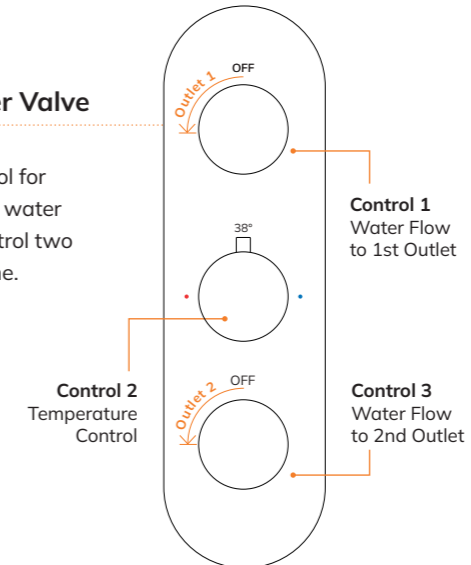

These valves come with an inbuilt 3 way diverter that allows you to switch water flow between three different outlets.

Triple Control Shower Valves have three controls. One control for adjusting the water temperature, while the other two controls manage the flow of water to multiple outlets. This type of valve allows you to run two outlets at the same time.

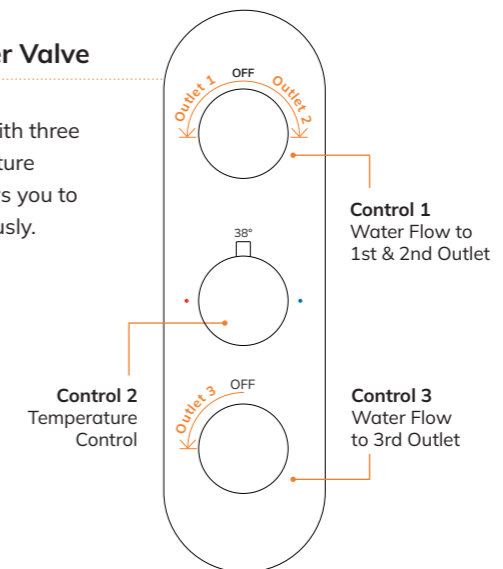

Triple Control - 2 Outlet Shower Valve

This valve has three controls. One control for water temperature and two controls for water flow. It allows you to independently control two different shower outlets at the same time.

Triple Control - 3 Outlet Shower Valve

This valve offers even more flexibility, with three controls. One control for water temperature and two controls for water flow. It allows you to use two of the three outlets simultaneously.

38°

Our thermostatic shower temperature controls are set to 38°C to provide the optimal balance between comfort and safety. This setting ensures a pleasant showering experience by maintaining a consistent water temperature, enhancing energy efficiency, and reducing the risk of scalding for all users.

“*Beautiful things that make your life better*”

is a concept deeply ingrained in Nordic design ethos. Everything must be functional, which is why Scandinavian designs are so successful when incorporated into bathroom space. HAKK seamlessly blends elegance and functionality into your bathroom, offering a touch of Nordic sophistication that enhances your daily routine.

HAKK [hahk] Norwegian Notch

The name represents the distinctive design feature of the products. Notches dictate the form and function of the collection.

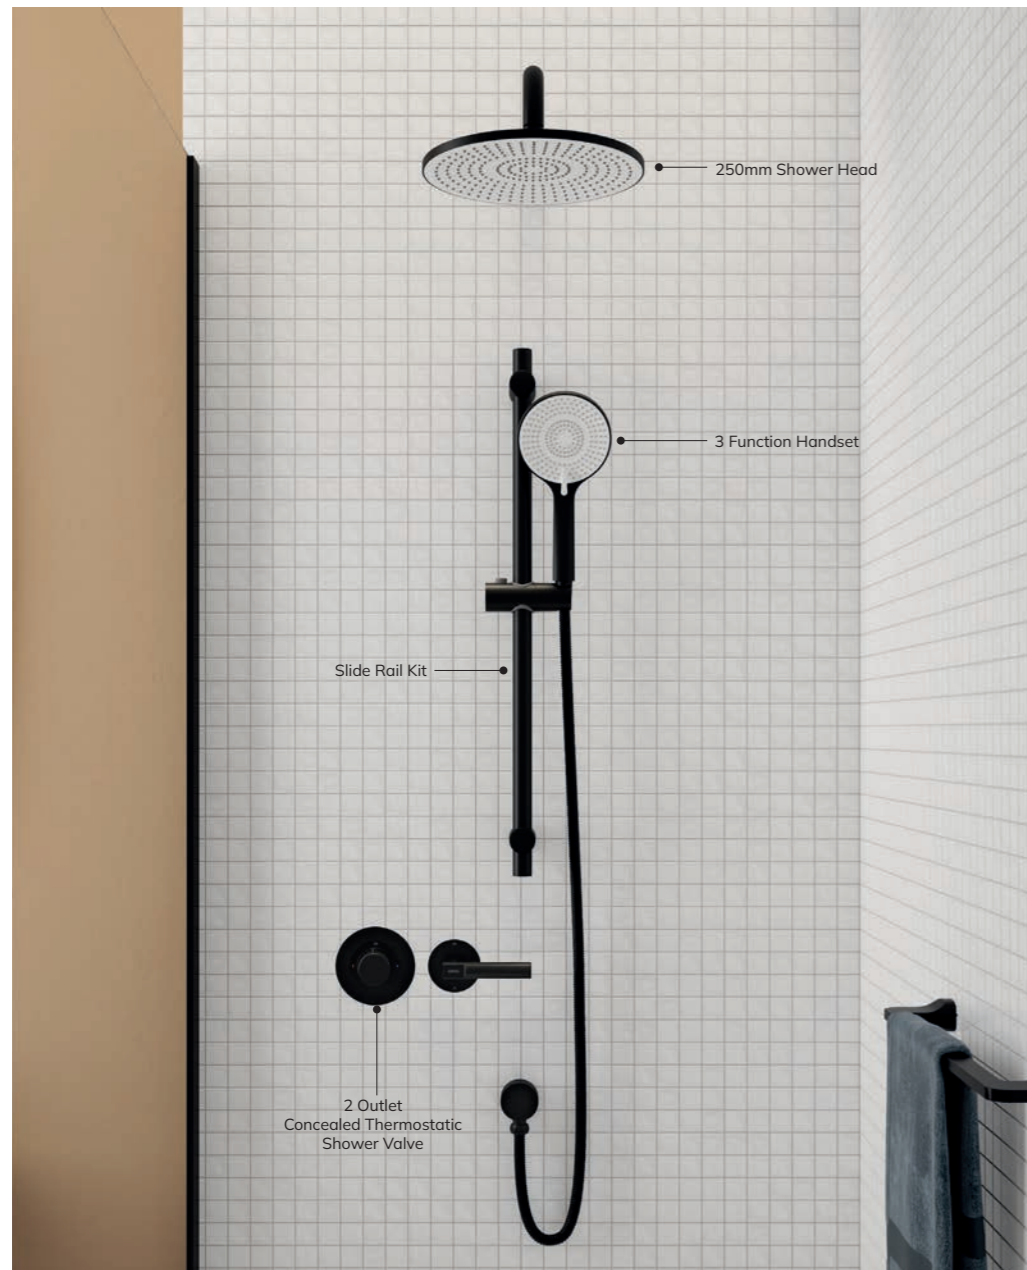

Introducing the latest addition to the **HAKK** collection.

HAKK showers feature an inbuilt notch that guides the user's hand to the optimal position, an intuitive design aimed at providing a more natural user experience. Available in four finishes – Chrome, Matt Black, Brushed Gold, and Brushed Nickel – you can achieve a harmonious and coordinated look in your bathroom.

With an individual diverter valve for switching water flow between 2 outlets and Anti-Scald Technology, you can enjoy your shower with comfort and ensure safety for every family member. With 15-year warranty on all finishes and customisable installation options, HAKK showers offer lasting durability and flexibility to suit your unique needs.

SHOWER ENCLOSURES

Introducing our exquisite range of shower enclosures – the perfect addition to enhance your bathroom’s design and reflect your unique personality. With their sleek and sophisticated look, our shower enclosures effortlessly complement the overall layout, elevating the aesthetics of your space.

Our enclosures feature state-of-the-art ClearShield technology, ensuring ease of maintenance and cleaning, while adding value to your investment. No matter the size or shape

of your bathroom, our extensive collections offers a variety of door types to cater to your needs. From spacious to compact, we have the perfect enclosure to fit any space.

Immerse yourself in the showering experience and bring a sense of clarity to your mind, allowing you to revitalise and start your day anew. Step into luxury and indulge in the ultimate showering experience with our exceptional shower enclosures.

Shower Door RANGES

ASPECT

Transform your bathroom into a luxurious oasis with ASPECT. Combining modern design with functionality, ASPECT is available in seven configurations and various sizes.

With an impressive height of 2000mm, ASPECT's sleek appearance is effortlessly complemented by two key features: spring-loaded rollers and 8mm toughened glass.

Available in three finishes, this collection sets a new standard in quality and design, offering abundant options to harmonise with your bathroom decor. Elevate your bathroom with the latest trend in shower door design with ASPECT.

ZEBA

Bringing together timeless design and innovative features, ZEBA is set to revolutionise bathroom design. With attention to detail, the ZEBA stainless steel handle serves as the focal point, adding a touch of elegance to the overall design.

Offering versatile door options, including sliding, bifold, pivot, and quadrant, ZEBA adapts seamlessly to any bathroom layout.

With an extended height of 1950mm, ZEBA shower enclosures create a sense of spaciousness and comfort. Experience the new standard in shower enclosure excellence with ZEBA.

Shower Door Types

SLIDING

Sliding door enclosures are space saving in design and are available in a comprehensive range of styles and sizes. These doors can be used in recessed showers, or add a side panel to create a complete shower enclosure.

Page 200 - 203

Bifold

Infold

BIFOLD & INFOLD

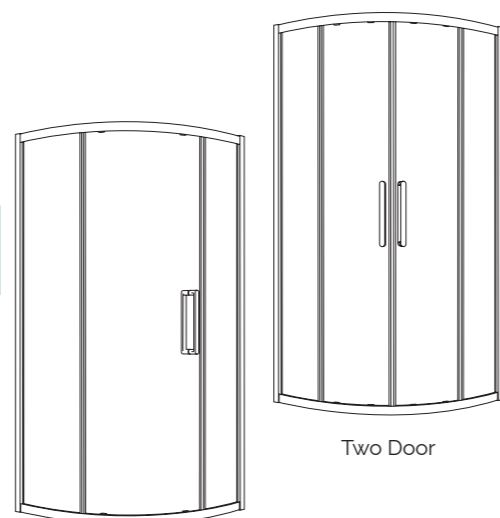

Featuring an inward opening mechanism, bifold & infold doors are an excellent option for compact bathrooms. This innovative design serves as a perfect space - saving solution, especially in smaller bathrooms where a forward - opening door could potentially obstruct fixtures located outside the enclosure.

Page 204 - 207

QUADRANT DOORS

With a curved front profile, quadrant enclosures offer a generous showering experience, while allowing for additional floor space within the bathroom.

Page 208 - 211

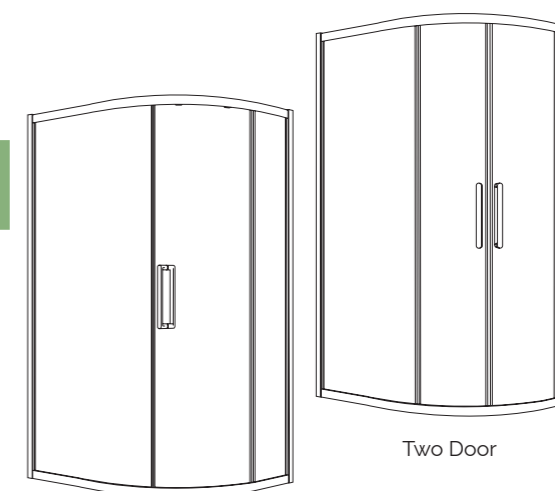

Single Door

Two Door

OFFSET QUADRANT

Boasting the same benefits as a quadrant enclosure, the offset enclosures have one side of the tray longer than the other, thereby creating the offset configuration. This allows for more room when showering, while still fitting neatly into the bathroom layout.

Page 212 - 215

Single Door

Two Door

Hinged

Hinged & Inline

Pivot

HINGED & PIVOT

These enclosures are hinged on one side and open outwards, giving you ample space to access your shower. Suitable for use in a recess, or add a side panel to create a full enclosure.

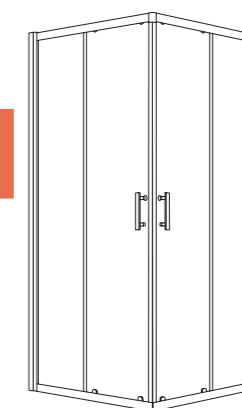

Pivot shower enclosure doors open outwards, creating a spacious showering experience while making access to the shower easy. It's important to ensure there is sufficient space in front of the shower when the door pivots open.

Page 216 - 221

CORNER ENTRY

Ideal for bathrooms with limited space, corner entry enclosures serve as excellent space savers. Neatly fitting into any size bathroom, they provide a multitude of advantages. With a range of options available, there's a perfect style and size to suit your bathroom.

Bifold & Infold Doors

Featuring an inward opening mechanism, bifold & infold doors are an excellent option for compact bathrooms. This innovative design serves as a perfect space-saving solution, especially in smaller bathrooms where a forward-opening door could potentially obstruct fixtures located outside the enclosure.

Offset Quadrant Doors

Boasting the same benefits as a quadrant enclosure, the offset enclosures have one side of the tray longer than the other, thereby creating the offset configuration. This allows for more room when showering, while still fitting neatly into the bathroom layout.

FOR SHOWER TRAYS

Hinged & Pivot Doors

These enclosures are hinged on one side and open outwards, giving you ample space to access your shower. Suitable for use in a recess, or add a side panel to create a full enclosure.

Pivot shower enclosure doors open outwards, creating a spacious showering experience while making access to the shower easy. It's important to ensure there is sufficient space in front of the shower when the door pivots open.

FOR SHOWER TRAYS

Wetroom Panels

For those seeking a more open and contemporary showering experience, our wetroom panels are the ideal choice. These panels can be seamlessly installed onto a tiled floor or paired with any of our SONAS Bathrooms shower trays. Whether you're looking to modernise your space or create a spa-like atmosphere, our wetroom

panels provide the flexibility and design options you need. Choose between fluted panels to add texture and elegance to your shower space, or go for the smooth glass, for a minimalist look. With the choice of clear or coloured glass, you have the creative freedom to craft a shower area that suits your individual taste.

FOR SHOWER TRAYS

SHOWER TRAYS

Elevate your shower experience with our exquisite range of shower trays, where superior design and practicality converge. Our shower trays feature textured finishes, including slate trays with a wide array of colour options, adding a touch of elegance and style to your bathroom. With built-in slip-resistant properties, safety is never compromised.

Crafted with utmost durability and quality, our shower trays are built to withstand the test of time. From compact square trays to spacious rectangular options, our collection offers a variety of shapes and sizes to suit any bathroom design and layout.

Shower Tray Guide

Marble Effect Trays

Marble Effect Trays use advanced gel-coated resin technology for a perfect blend of functionality and aesthetics. Enjoy the lightweight benefits of resin combined with the timeless beauty of marble, all without the challenges and maintenance.

See 252 - 255

Slate

Slate trays are the ultimate in luxury and style. Available in a range of shapes and sizes, they add texture and colour to your shower. Featuring a slip resistant, ultra-thin, 30mm low profile for a smooth finish.

See 256 - 259

Anti-Slip Low Profile Acrylic

Anti-slip trays perfectly combine safety and style. Innovative anti-slip technology is directly integrated into the acrylic material, significantly reducing the risk of slips and falls. This integration provides a consistent finish throughout the tray, ensures long-lasting effectiveness, and makes cleaning and maintenance straightforward.

See 260 - 263

Low Profile Acrylic

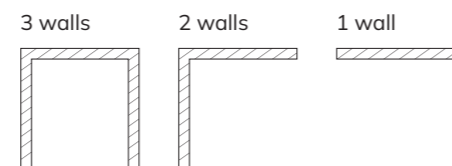

Finished with a high quality, smooth white acrylic which is stylish and contemporary, comfortable to use and easy to clean. Available in an extensive range of shapes and sizes.

See Page 262

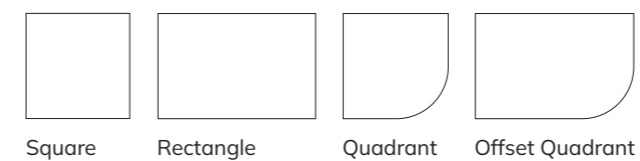

Your Space

Choose the right shower tray by planning ahead. Consider the footprint size you can allow for the tray, and which shape works best for your room.

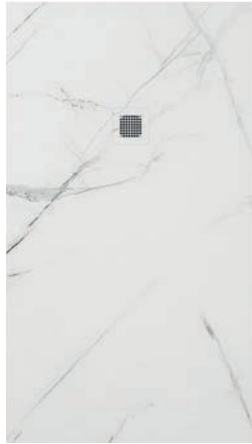

We have options including square, rectangle and quadrant trays. Your tray may be installed in a recessed or flat to floor application. Choose from a host of styles including ultra low profile slate and unity trays, acrylic capped low profile and New KRISTAL Secure anti slip shower trays.

SLATE Shower Trays

All our SLATE shower trays are made based on the latest material technologies, a combination of resins, gel coat and mineral stone. They are very strong against impact, comparable in this respect to natural stone. It is a product of solid core, strong and stiff, thereby preventing breakage.

SONAS Bathrooms now offer an **Easy Plumb, Easy Access kit** solution across its range of **KRISTAL Low Profile & KRISTAL Secure Anti-Slip** shower trays.

Loved by installers, the easy plumb installation kit features adjustable legs and loose removable access panels with a unique fastening system. Designed to raise the tray off the floor, it is ideal in applications where the shower tray waste and pipework needs to be plumbed above the floor boards or concrete floor.

The access panels in each easy plumb kit are made to suit various sizes and therefore may need to be cut down on site to suit some tray sizes. Each panel has cut lines clearly marked to suit your tray size.

Please refer to the guide opposite to identify which easy plumb kit you require to make your shower tray **Easy Plumb**.

BATHS

Transform your bathroom into a personal oasis with our exquisite range of baths. Beyond their practicality, baths offer a multitude of benefits that elevate your bathroom design and reflect your unique personality. Versatile in nature, baths take on different personas, adapting to the individual who immerses themselves in its soothing waters. Explore the realm of wellness and hydrotherapy as you

indulge in the restorative effects of a bath. Immerse yourself in a tranquil sanctuary, a place to relax and drift away from the stresses of daily life. With our baths, you can create a personal haven where you can relax finding solace and rejuvenation. Experience the ultimate blend of style, functionality, and well-being, all within the embrace of your own bathroom.

Bath Guide

Freestanding

Create the “wow” factor in your bathroom with one of our stunning freestanding baths. Suited to all spaces, they create a spa-like, luxurious aesthetic. Freestanding baths grant the freedom to place the bath anywhere in your bathroom.

Corner/Offset Baths

The ideal solution for space saving. Corner/Offset baths do not require a long wall as straight baths do, so can be neatly tucked into corners where another bath may not fit. These baths are available in left or right-hand orientation.

Endura Baths

For added durability, our range of Endura baths offer additional layers of GRP Reinforcement compared to a standard bath. Endura baths are available in double and single-ended options.

Straight Baths

Straight baths are a popular and versatile option. Typically wall fitted, they are available in single or double ended styles. Double ended baths have taps fitted along one side of the bath, while single ended have taps at one end.

Shower Baths

Shower Baths are the perfect balance of luxury and practicality. There are 2 styles to choose from: P-shape and L-shape. These baths are wider at the showering area for comfort when standing. Both are available in left or right-handed orientation.

Whirlpool Baths

Luxurious and affordable, whirlpool baths are great for your well-being. Choose from 8 or 12 jets, with the option of an Aqua Light for added opulence. All SONAS Bathrooms acrylic baths are compatible with our whirlpool systems* excluding freestanding baths.

Reimagine... *The Wonder of Colour*

With a multitude of colour possibilities to choose from, why live in a neutral world? It's time for you to reimagine life with hues that you have never seen before.

Customise the exterior of our freestanding baths in any RAL colour possible and add personality to your bathroom. Our baths are available in more than **2500 colours** and with distinctive finishes of your choice.

Let SONAS colour your imagination!

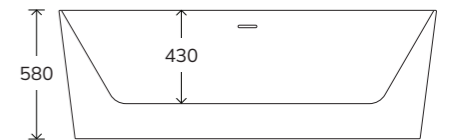

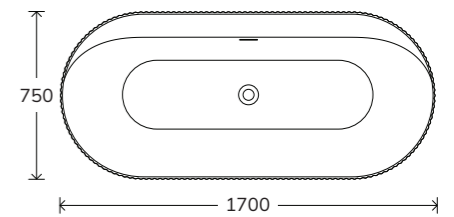

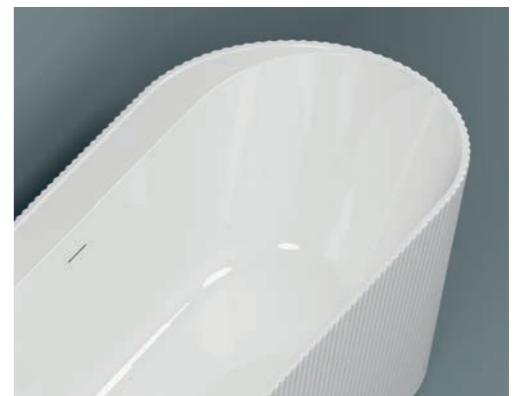

NEW

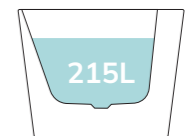

REED

where serenity converges with innovation

Immerse yourself in a tranquil oasis, enveloped in a bath that blends nature-inspired beauty with cutting-edge technology. With its fluted design, Reed captures the essence of reeds caressing calm waters, creating a visual symphony of relaxation.

HEATING

Elevate your bathroom comfort and experience luxurious warmth with our stylish range of heated towel rails and radiators. Not only do they provide a cosy and comfortable environment, but they also add to the overall aesthetics of your space. Our collection of heated towel rails and radiators is built with enduring quality and compliance, ensuring peace of mind for homeowners.

With rigorous testing and adherence to industry standards, you can trust that our products deliver superior performance and longevity. Choose from vertical or horizontal designs to suit your bathroom layout and maximise space efficiency.

Our ranges also offer a wide selection of stunning finishes, such as chrome, matt black, brushed gold, and brushed nickel, allowing you to effortlessly complement your bathroom decor and create a cohesive design. Treat yourself to the ultimate indulgence by stepping into a warm and inviting bathroom. Explore our beautiful range of heated towel rails and radiators and enhance both the functionality and style of your space. Embrace the comfort and elegance that our collection has to offer and transform your bathroom into a haven of relaxation.

Radiator Guide

Horizontal

Horizontal heated rails are neat, compact and perfect for placing under windows. This is usually the coldest place in the room. Placing a heated rail here will protect against the cold and makes good use of your wall space.

Vertical

Vertical heated rails make the most of your available wall space, allowing you to choose a wider vanity unit or shower enclosure. These rails offer a striking focal point and are available in innovative contemporary designs.

Stainless Steel Towel Warmers

Stainless steel is a versatile, strong, and durable material that is resistant to rust and corrosion. Easy to clean, it has a modern appearance, and is environmentally friendly, making it ideal for everyday life.

Ladder

Ladder heated rails are a stylish bathroom staple. These rails are available in three colour options and a variety of sizes. Ladder heated rails offer a sleek and minimalistic look, keeping your towel snug, warm and ready for use.

Speak to your qualified installer about your heating system type and the BTU requirement. BTU (British Thermal Unit) is the measurement used to calculate how much heat output is needed to warm a room. It's important that this is calculated accurately, to make sure your comfort level matches your space.

Brushed Gold

ARYA Stainless Steel Towel Warmers

Polished Steel Matt Black Brushed Gold Brushed Nickel

Experience the ultimate bathroom upgrade with our ARYA range of stainless steel towel warmers. Crafted from high-quality stainless steel, a strong and durable material, they offer longevity and exceptional heat distribution.

No more waiting for your towels to warm up on chilly mornings. Efficient heat distribution is the key feature of the ARYA range. With rapid heating capabilities, the range provides you with warm towels in a matter of minutes.

What truly sets the ARYA range apart is its remarkable durability and efficiency. Corrosion-resistant, they will maintain their pristine appearance over time, ensuring a long-lasting investment for your bathroom.

Say goodbye to standard radiators and embrace the benefits of premium quality stainless steel.

TECHNICAL SPECIFICATION

We know precision is an important part of planning your dream bathroom, that's why in the following section we have collated specific technical information on the **SONAS Bathrooms** products featured in this brochure.

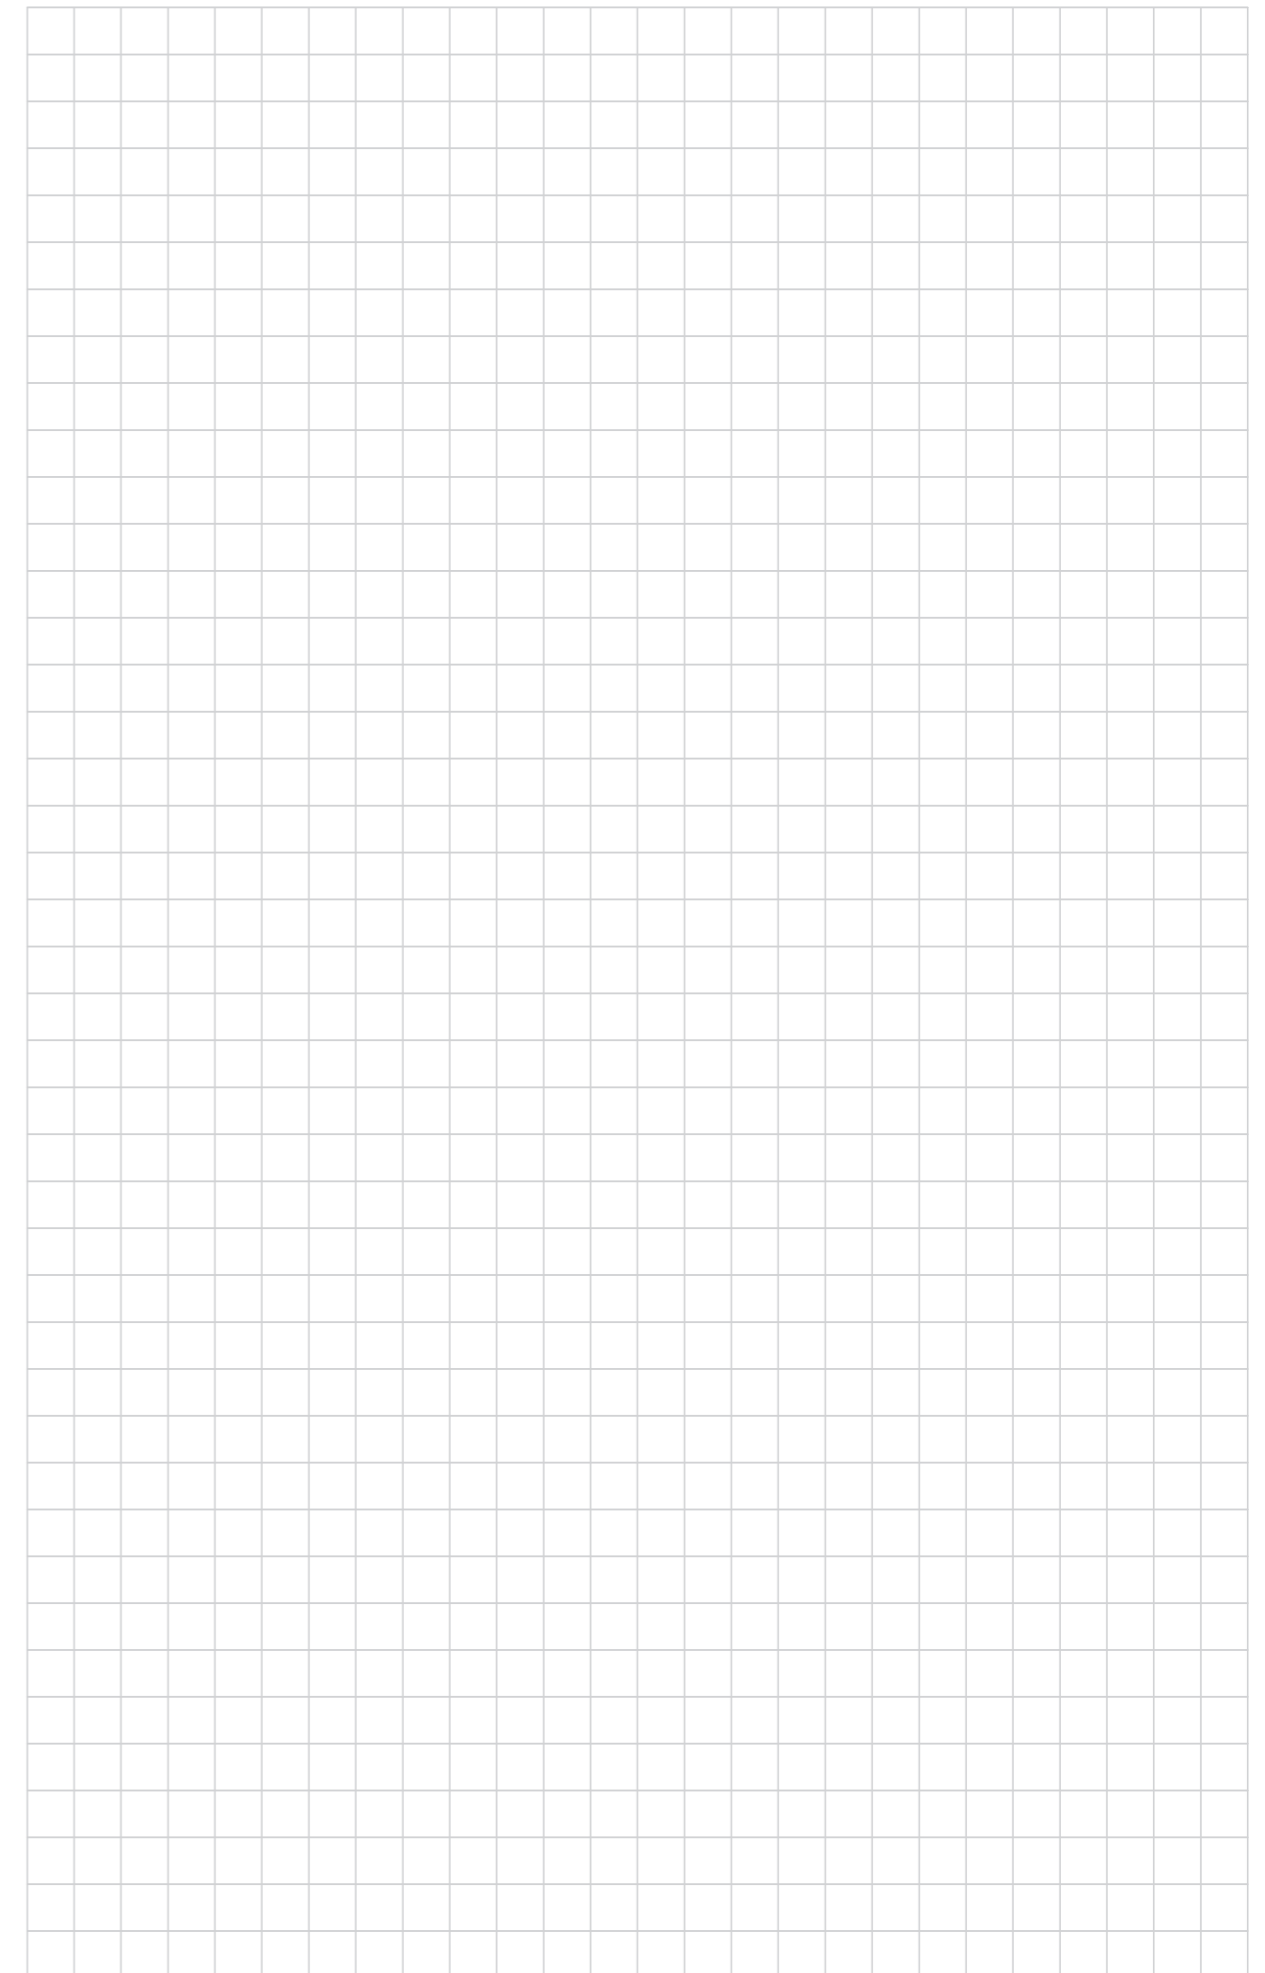

All the basic detail and information you require is presented in an easy to use format, however should you require any further information or general advice, please do not hesitate to contact your approved **SONAS** dealer.

Planning tips to help you design your dream bathroom

- 1 Measure your bathroom carefully. Using our grid on the opposite page draw out your bathroom space to scale.
- 2 Accurately mark out all fixtures such as doors, windows and radiators, also making note of which way and how much the door protrudes into the room.
- 3 Draw in shapes to best represent your bathroom items: wc, basin etc.

Using the scale 1 square = 100mm

Scale: 1 square = 100mm

Mirrors

2 Year Warranty

The above Warranty applies to all replacement products and parts within the Warranty period, labour will be covered for a period of 2 Years.

(*) Cartridges and flexi hoses in the Hakk, Alita, Luta and Scope ranges are covered by 15 year warranty, 2 years on all other models

(**) Cartridges in the Hakk and Alita ranges are covered by 15 year warranty, 5 years on all other models

(***) Aspect, City+ & Zeba rollers covered by a 5-year warranty, 2 years on all other models.

Please note that above Warranty and extended warranties are applicable for goods installed in a domestic environment with reasonable usage. Any item installed in a public or commercial area will be subject to 1 Year Warranty. Faults must be reported within the respective Warranty period from proof of purchase date.

Warranties are limited to product defects and failures arising from the manufacturing process and does not apply to products that have been damaged as a result of transit, misuse or incorrect installation.

While all products are subject to quality control checks by the manufacturer, from time to time a product or batch of products may enter the market that does not meet the necessary quality standard. SONAS Bathrooms will replace any product with a visual defect or that is manufactured outside of the allowable tolerances according to UKCA standards, however; all products must be checked for these defects by the installer as SONAS Bathrooms will not be responsible for any refitting or refitting costs associated with replacing the product.

SONAS Bathrooms must be given reasonable opportunity to inspect the product in the installed situation, if removed the product must not be destroyed but should be retained for inspection. Photographic or video media of the product in the installed situation may be requested. Suitable access must be provided in order to reasonably and cost effectively allow for a product to be repaired or replaced under warranty. SONAS Bathrooms will not be responsible for reinstallation of products that are tiled in to areas without suitable access.

Cleaning & Maintenance

- All products should be cared for with a regular and suitable cleaning regime.
- The use of aggressive cleaning agents should be avoided and in particular on chrome, brass and aluminium surfaces a soft damp cloth and warm soapy water is sufficient.
- Suitable ventilation should be provided and in cases of bathroom furniture materials are water resistant but not water proof, therefore regular maintenance and the removal of excess water on or around the product is necessary to avoid damage.

Exclusions of Warranty

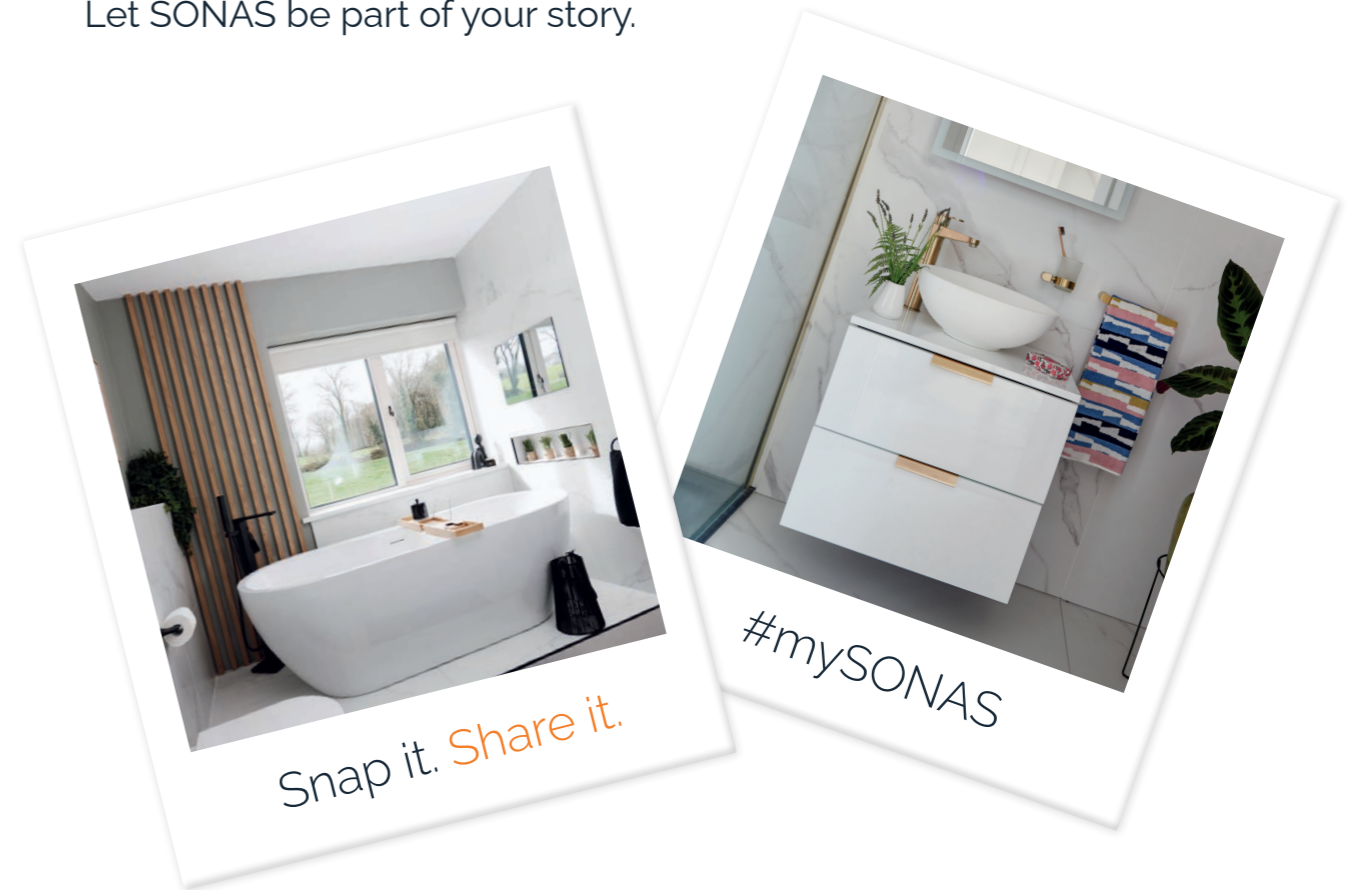

- Incorrect installation not in accordance with fitting instructions and best plumbing practice.
- Failure to care for and maintain product as per care & maintenance guidelines.
- Improper use of product not in accordance with the intended use and limitations of the product specifications.
- Wilful or negligent damage.
- Ex display items.
- If excess water levels are found in vanity units.
- Scratches or defects reported post installation.
- Products that are fitted and then reported damaged.
- Damage caused by specific environmental circumstances, excess or negative pressure in the line, insufficient operating pressure as per the product technical specifications, limescale or hard water, aggressive cleaning agents or chemicals.
