

A Wash water softener will descale your shower and return it to full power, plus with silky soft water you will improve skin conditions and use less soap and shampoo too.

### Removes existing scale...

Your Wash water softener will begin to descale your system from the moment it is installed.

### Prevents any new scale...

Once your existing scale has been removed, new scale will not form. Baths, basins, taps, shower screens, crockery, cutlery and glasses will stay clean and sparkling.

### Protects your appliances...

With no scale in your system, your washing machine, dishwasher and shower will work better than ever before.

### Kinder to your skin...

Soft water feels silkier. Many sufferers of dry skin notice a marked improvement with soft water. With less soap, shampoo, washing powders etc being required, the major causes of irritation are no longer present.

### Saves you money...

The cost of washing powders, soaps, shampoos, cleaning agents and detergents will be reduced by up to 50%. And with no scale to heat first, soft water saves you money before it reaches the tap!

### Bath time bliss...

Continuous lather, no scum, no 'tide' lines, sounds good doesn't it? PS: Less cleaning time too!

Your Si water softener is suitable for all types of plumbing systems. All models come complete with full installation kit, that includes, unique EaSi-Fit Bypass suitable for both 15 and 22mm pipework (eliminates the need for any extra installation components), pair 80cm flexible hoses, 3m drain/overflow hose, water hardness test kit and plug-in transformer with 3m fly lead. 60 & 80cm Hi-flow flexible hose upgrades (3/4" and 1") are available – details on request. Please note Si360 includes Hi-Flow 1" bypass and full installation kit for 28mm pipework.

### CHOOSING YOUR MODEL

To identify the right model for you, simply apply your family size to the chart below and cross-reference to the model required. If you do not know the water hardness of your area, or indeed require any other assistance, please contact Wash using the details below.

### INSTALLATION REQUIREMENTS

(all models)

**Dynamic water pressure:** 1.5-5 bar

**Operating temperature:** 2-49°C

**Power supply:** 3 pin socket

**Waste:** Drain & overflow facility

**Salt:** Tablet salt.

### HELPING YOU

If our regular water softeners are not to your requirements, i.e., size or if you have an unusual water system (two cylinders, large water main etc) please call us.

We manufacture many different models in addition to this range and are confident that we can help you.

### FAMILY SIZE CHART

Model	Hard Water**	Very Hard Water***
Si160	1 - 5 people	1 - 4 people
Si260	1 - 9 people	1 - 8 people
Si360	1 - 16 people	1 - 14 people

\*\*Hard Water up to 360ppm. \*\*\*Very Hard Water 360-450ppm

Family size is based on allowing 142 litres per person per day as recommended by the Energy Savings Trust  
For water hardness above 450ppm, please call 01379 873070 for advice

Model	Salt Use per Regeneration (kg)	Maximum Flow Rates (lpm)	Dimensions - mm H x W x D	Connection Size
Si160	0.54 - 1.8	65	535 x 310 x 472	3/4" mbsp
Si260	0.95 - 3.15	63	715 x 310 x 472	3/4" mbsp
Si360	1.58 - 5.25	61	1047 x 310 x 505	1" mbsp

All dimensions include standard hoses connections.

For 22mm Hi-flow hose applications: Si160/260 models add 17mm to depth.

IMPORTANT: For 28mm Hi-flow hose applications: Si160/260 models add 38mm to depth.

As part of ongoing research and development, we reserve the right to alter design or specifications without prior notice.

# Consider the benefits of a Smartline Si water softener with SmartPlus...

## SMARTPLUS™ FEATURES:

- High flow rates with low pressure drops – flow rates up to 65 lpm.
- Compact, robust designs for quick and easy installation.
- Large salt opening and salt storage.
- Patented control valve with ceramic disc operation, ensuring years of reliability and maintenance-free usage.
- The UK's first softener ranges that include AI SmartCare:
  - For up to 56% lower running costs with Precision Brining™ that only regenerates the resin that has been used.
  - Self-adjusting regeneration frequency by measuring, learning, and storing your water usage patterns to keep running costs to a minimum.
  - Stores data in the event of a power cut.
  - Regenerates the NSF approved food grade resin with soft water!
  - Holiday mode – shuts the water off to the complete house while you are away with the simple press of a button.
- Soft touch backlit display panel for easy programming and reading.

*The Johnson family behind Wash Water have been successfully developing water softeners since 1964. Proven performance, reliability and efficiency supported by a minimum 2 year guarantee\* helps to ensure that your Wash water softener will be...*

## The Smart choice

**Supremely Smooth**  
healthier skin for all the family!

**Supremely Soft**  
towels, clothes, & bedding...

**Supremely Sparkling**  
taps, showers & surfaces...

## High performance water softeners providing economy, efficiency and reliability through experience

Reliability alongside being compact are important considerations when choosing the right softener. The Si160 and 260 models at only 472mm\* deep including hoses connected, will allow installation in the tightest of spaces!

From easily viewed control panels with back lit display, high capacity resin vessels, large salt storage with magnetic salt lid, every Wash water softener has been built to the highest possible standard.

All Si models are meter controlled, with a host of SmartPlus™ features as standard to measure the water used and regenerate to individual household requirements.

AI SmartCare ensures there is enough soft water available to delay the regeneration until 3am\*\* a time when little, if any, water is being used.

\*Using hoses supplied

\*\*Time can be changed to suit individual requirements

Regulations state that a minimum 1 year guarantee should be provided...

**At Wash Water, we go so much further...**

\*As well as giving you a 2 year parts and labour guarantee as standard, simply by registering within 30 days of purchase we will upgrade your parts guarantee to 7 years Free of Charge. No hidden conditions and charges, simply register to extend - Free of Charge!
